

## Product Pricing Information

Reseller Pricing as of July 1, 2009

### The following information applies to all products:

#### Return Policy:

Unsold units, provided the CD case has not been opened, may be returned for credit (minus a restocking fee) toward updated or new units of the same or different product. Damaged units received by the Reseller will be replaced at no charge provided the carrier and Software Technology, Inc., are notified immediately upon receipt. Certified Resellers agree to return credit card purchases only when authorized. Software returned and charged back are subject to a charge-back fee, \$25 administrative fee, and restocking fee.

#### Delivery:

Shipping and handling charges are applied to all orders. Standard shipping is C.O.D. via UPS Ground F.O.B. Lincoln, NE. Also available are UPS Red or Blue Label and Federal Express.

#### New Resellers:

A discount of 25% off of the retail price per product is given to new resellers on their first order if the order is being shipped C.O.D. A discount of 20% off of the retail price per product is given to new resellers if their first order is being paid with a credit card.

#### Authorized Resellers:

Only Authorized Resellers are allowed to sell Tabs3 and PracticeMaster products. It is a requirement that Authorized Resellers assist firms with the installation and training of any Tabs3 and PracticeMaster software they sell. Orders may be placed with a credit card for a 30% discount; a 35% discount is applied to C.O.D. orders.

#### Certified Resellers:

Once Authorized Resellers have had multiple successful installations of Tabs3 and PracticeMaster software and have met certain training requirements, they can become Certified Resellers. Certified Resellers are regularly recommended by Software Technology, Inc., to assist in the sales, installation, training, and ongoing support of Tabs3 and PracticeMaster products. Orders may be placed with a credit card for a 35% discount; a 40% discount is applied to C.O.D. orders.

#### Active Users:

Active Users are based on the number of users that will be accessing the software at any given time, not the total number of users you set up in the system. For instance, PracticeMaster has a limit of 999 Active Users, but does not have a limit on the number of users that you set up in the system. Even Single-User versions allow you to set up an unlimited number of users.

Please contact our Sales Department with any questions:
