Payments to your firm from a client's trust account are automatically entered into Tabs3 Billing. Trust balances also appear on work-in-process reports and on client statements in Tabs3 Billing. Print checks from your clients' trust accounts. Use the Three-Way Reconciliation Report to ensure the accuracy of your trust balances.

Accounts payable

Stay on top of your cash flow by tracking cash requirements, invoice aging, and vendor accounts. Track invoices and keep a list of all vendors in one place. Save time and avoid having to re-enter payables on a regular basis by using recurring transactions. Print a batch of checks or use the Quick Print feature to print a single check. See all of your checks in one easy-to-use check register. Export a list of approved checks and upload them to your financial institution's fraud prevention program, Positive Pay.
